We hereby appeal the decision of USAC to reverse funding for FY 2009-2010

We got denied after being approved initially. At time of initial review by PIA team, all proposals and all contracts and all plan drafts were discussed and submitted and consequently approved. Later on, we got a denial without any explanation. We appealed to USAC and got denied again without explanation.

These items were installed based upon approval of USAC

Attached please find some paperwork regarding this matter.
